PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2+ years building responsive, production-ready web interfaces for real-world digital products. Specializes in React/Next.js applications using TypeScript and Tailwind CSS. Currently contributing to live product development at IntuitiveX HQ while managing 5+ independent web projects. Combines a design-informed eye with strong technical execution to deliver pixel-accurate, user-centric interfaces.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

Tools & Platforms: Git, GitHub, VS Code, Canva

Core Practices: REST API Integration, Component-Based Development, Mobile-First Design, Responsive UI, Client-Side Validation, Figma-to-Code, ATS-Optimized Workflows

EXPERIENCE

Frontend Developer | *IntuitiveX HQ — Technology & Digital Solutions* | Jan 2025 – Present

- ▶ Translate Figma design specs into responsive, pixel-accurate React/Next.js interfaces using TypeScript and Tailwind CSS
- ▶ Build and maintain reusable component libraries, improving development speed and UI consistency across the product
- ▶ Integrate REST APIs and manage data fetching to power dynamic, data-driven features in production applications
- ▶ Collaborate cross-functionally with designers, backend developers, and the product manager using Git/GitHub workflows
- ▶ Currently leading development of the IntuitiveX company website (pre-launch) — the largest project in the company's frontend pipeline

Frontend Developer | *Personal & Portfolio Projects* | 2024 – Present

- ▶ Designed and deployed a production-ready personal portfolio site using React, achieving full Figma-to-code accuracy
- ▶ Built 5+ responsive single-page applications using React and Next.js with mobile-first layouts and client-side validation
- ▶ Integrated third-party REST APIs across multiple projects to fetch and display live dynamic content
- ▶ Maintained clean, documented source code and version history using Git/GitHub across all personal projects

Frontend Developer | *Academic Projects — NIIT Full-Stack Program* | 2023 – Present

- ▶ Built interactive, responsive web pages using HTML, CSS, JavaScript, and React as part of a structured full-stack curriculum
- ▶ Applied component-based architecture and modern layout techniques to deliver mobile-first, accessible interfaces

PROJECTS

Portfolio Website

Built with React | Live: sowaledanielporfolio.netlify.app

- ▶ Designed and developed a fully responsive personal portfolio from scratch using React, with focus on performance, accessibility, and clean UI

IntuitiveX Company Website

Built with React / Next.js | Status: In Development (Pre-Launch)

- ▶ Leading frontend development for IntuitiveX's main company website — the most complex project in the organization's current frontend roadmap

Web Application Projects (5+)

- ▶ Built multiple single-page applications with React and Next.js, each featuring reusable components, API integration, and client-side validation

EDUCATION

Full-Stack Web Development Certificate (In Progress)

NIIT — National Institute of Information Technology | 2023 – Present | Expected: Late 2025 / Early 2026

SSCE Certificate

CIFMAN College | 2016 – 2022
